PABLO GRADOLPH OLIVA

FUTURE SOFTWARE DEVELOPER

PRESENTATION

I am currently pursuing a master's degree in Data Science and Computer Engineering at the University of Granada. Also, I have a degree in Science from the universities UAM/UC3M/UAB, My goal is to continue my education in artificial intelligence and data science.

ATTITUDE

- Self motivated and disciplined.
- Responsible and punctual.
- Team worker.
- Passion for learning.
- Sports person.

WORK EXPERIENCE

NTT DATA (July 2023 - Febrero 2024)

Internship at NTT DATA in the banking sector:

- Active participation in the maintenance and continuous improvement of Calypso and Testing Suit applications,
- Optimization of its performance and functionality to meet the requirements of the Italian bank Intensa.
- Collaboration in the development and implementation of new functionalities..
- Comprehensive testing to ensure software quality, identify and fix problems,
- Constant interaction with a multidisciplinary team to understand the client's needs and offer effective and customized solutions..

Technologies: JAVA, TortoiseSVN, UNIX, JIRA and Excel.
Working Language: English.

EDUCATION

Master's Degree in Data Science and Computer Engineering

The program at the University of Granada combines a solid background in theoretical fundamentals with practical applications in areas such as data analysis, machine learning, artificial intelligence, and advanced computing systems. Throughout the master's degree, I am developing skills in programming, algorithm optimization, and big data management, using tools and technologies such as R, Python, and cloud computing environments.

Bachelor in Science.

Joint university degree between the universities UAM/UC3M/UAB. I started in September 2020 and finished in May 2024. I specialized in mathematics and computer science. This degree has led me to learn about programming, which is what I want to do in the future.

Python Technician Specialist

- Course at A.E.P.I.
- Completed in July 2023.
- Qualification consisting of:
  - Python Professional Course: 100 hours.
  - Advanced Python Professional Master: 120 hours.

LANGUAGES

- Spanish: Native.
- English: B2 (Aptis - International Certificate)

ADDITIONAL INFORMATION

- Driving license.
- Personal teacher in Mathematics and Physics.
- Lifeguard: summers of 2019 and 2021 (June - September). Hired by OZONIO NOVA XXI S.L.
